

New Conductive Bib Requirements for Foil Events

(Colorado Springs, Colo.) - Effective, Aug. 1, 2011, the use of a conductive bib is required in national level foil competitions that serve as selection events (cadet, junior, senior, wheelchair and veterans). Weapons check at the national level will include testing conductivity of the bib as well as ensure cord connector functionality.

What this means

The conductive bib in foil is not required for qualifiers. The conductive bib in foil is only required at the National level (NACs and Championships) for Division I, Junior, Cadet, Veteran and Wheelchair.
